

Girl's Power

[VERSE 1]

We all have a story to tell
We've been fighting since we were young
Very different from the fairytales
This society has shown
Working harder to prove them wrong
In an ocean full of sharks
Running faster under a storm
While they wait to see if we last

[CHORUS]

We are powerful,
No need to shout
We are beautiful
From the inside out
We are Capable
That's what it's about
We stand together
Fight for each other
We are Colorful
We can stand out
We're unbreakable
But we burnout
We are wonderful
And there's no doubt
We stand together
Fight for each other

[VERSE 2]

We've been using so many tricks

To survive this uneven treat
While they're ready to point the fingers
When they see us close to reach.
And it's not a competition
we can all be finally free
but it should not be a petition
It should come just naturally
